TO WHOM IT MAY CONCERN

Date: 20.07.2012

We used Mindray DP – 50 VET Ultrasound machine. Working with this machine was very satisfying and useful in diagnostic process of diseases in small animals as well as in horses. We also used the machine in lectures of diagnostic imaging and students were very pleased with intuitive and clear control.

We used ultrasound mostly for diagnostic and preventive examination of thrombophlebitis of jugular vein in horses.

In small animals the Mindray DP – 50 VET we used for abdominal cavity and always give excellent views.

Yours Sincerely,

MVDr. Pavel Proks, Ph.D.
